DEAD CELLS // 3D-TO-PIXEL SPRITE NORMAL MAPPING & INPUT CANCEL COMBAT

[FLAGSHIP MAGNUM OPUS SPECIFICATION]

Technical Craft Breakdown: 3D rigged character baking down to per-pixel normal-mapped 2D sprites with sub-frame input-buffer cancelling and kinetic hit-stop physics

[PROOF-OF-CRAFT SYSTEM VERIFICATION]

Independent analysis of signal routing, structural composition, and production engineering. Verified across the Roily Radar Network for direct studio procurement.

ROILY SEED SHIELD // DIRECT COMMS LOCKED

Direct contact channels remain shielded behind the Mutual Handshake Barrier (Zero Spam).

1-Click Instant Delist is permanently available on the live node (GDPR Art. 21 / No account required).
