BATUMI II & DREZNO // QUAD DIGITAL MODULATION & 8-BIT VOLTAGE PROCESSING

[FLAGSHIP MAGNUM OPUS SPECIFICATION]

High-density voltage processing architecture featuring Leibniz binary logic, discrete DAC conversion, and quad phase-correlated analog outputs.

[PROOF-OF-CRAFT SYSTEM VERIFICATION]

Independent analysis of signal routing, structural composition, and production engineering. Verified across the Roily Radar Network for direct studio procurement.

ROILY SEED SHIELD // DIRECT COMMS LOCKED

Direct contact channels remain shielded behind the Mutual Handshake Barrier (Zero Spam).

1-Click Instant Delist is permanently available on the live node (GDPR Art. 21 / No account required).
