```
SPEC ID       : RLY-DOS-000000000297                    PROOF-OF-CRAFT: 345 XP // underground
ATTRIBUTED TO : Raster-Media                                  RADAR HUB     : Berlin, Germany
CATEGORY      : Audio Synthesis                                   INDEXED       : 2026-11-09
NODE ENDPOINT : https://roily-app.vercel.app/?node=c0000000-0000-0000-0000-000000000297
```

UNIVRS // COMPUTATIONAL SINE-WAVE FREQUENCY MODULATION & SUB-BASS PULSES

[FLAGSHIP MAGNUM OPUS SPECIFICATION]

Iconic algorithmic sound design exploring frequency extremes, microscopic rhythmic clicks, and high-precision spatial acoustic placement.

[PROOF-OF-CRAFT SYSTEM VERIFICATION]

Independent analysis of signal routing, structural composition, and production engineering. Verified across the Roily Radar Network for direct studio procurement.

ROILY SEED SHIELD // DIRECT COMMS LOCKED

Direct contact channels remain shielded behind the Mutual Handshake Barrier (Zero Spam).

1-Click Instant Delist is permanently available on the live node (GDPR Art. 21 / No account required).
